Hospital Medicine Updates: Evidence to Practice

Hospital Medicine Updates: Evidence to Practice will cover the clinical issues most relevant to hospitalists and others who care for hospitalized patients. Taught by UCSF's top teachers and selected guest faculty, the course will specifically highlight recent advances and focus on high-yield, practice-changing updates. To promote active learning, the course will use a mobile audience response system. In addition, there will be dedicated review and consolidation sessions where key learning points will be reviewed.

The course includes broad content in infectious diseases, cardiology, artificial intelligence, anticoagulation, clinical reasoning, and much more!

NEW THIS YEAR! Learn POCUS in Paradise! UCSF POCUS for the Hospitalist Mini-Course is a flexible, targeted workshop designed to elevate your point-of-care ultrasound skills. Over three hours, you'll spend the majority of your time scanning standardized patients, guided by expert faculty who will demonstrate techniques and help optimize your image acquisition.
