Information

CONFERENCE OVERVIEW:

Our nationally and internationally known faculty have created a dynamic program focused on the latest advances in digital health, and innovative technologies in hip and knee surgery. This primarily case-based program will focus on the general orthopaedic surgeons as well as those who specialize in hip and knee replacement. Combining didactic, case based, and small group breakout sessions, our esteemed faculty hopes to engage the attendee in two days of interactive education.

TARGET AUDIENCE:

The target audience is the surgeon in general orthopaedic practice or arthroplasty surgeon, as well as those interested in the application of modern health technology solutions in orthopaedic practice.

CONFERENCE OBJECTIVES:

An attendee completing this conference will be able to:

- Refine care based on current literature in diagnosis and treatment recommendations.
- Use knowledge of common complications of surgery to improve the quality of practice.
- The attendee will use knowledge of surgical technique to expand the options and improve the execution of surgical technique in practice.

HIGHLIGHTS:

CME
6 Hands-on Workshops
Wine Reception
Buffet Lunch(s)
World famous Napa attractions!

NEW THIS YEAR:

Special breakout session for AHP/RNs led by faculty covering topics including the workup of painful total joint arthroplasty, radiographic and advanced imaging of joint replacements, implant indications and identification.
