43RD ANNUAL

Advances in Heart Disease 2026

Our 43rd annual course will again strive to present topics that highlight new evidence-based medicine findings reported within the last one to two years that impact clinical practice. These will range across a variety of cardiologic subspecialty interests including heart failure, arrhythmias, cardiac surgery, gene therapy, aortic diseases, prevention and artificial intelligence.

Our faculty will include a distinguished group of visiting academicians from North America together with outstanding teachers and clinicians from the University of California, San Francisco.

All sessions will be recorded and made available to participants for online viewing 30 days post course.

TARGET AUDIENCE This course is intended for cardiovascular specialists, practicing cardiologists, internists, family physicians, cardiovascular and critical care nurses, and physician assistants.

REGISTRATION

Early Bird by 10/01/26

Regular Fee 10/02/26 and after

Physicians

\$750

\$800

Advanced Practice Professionals/Nurses

\$550
