60th ANNUAL

Recent Advances In Neurology 2027

OVERVIEW This meeting is designed for the practicing neurologist and provides a review of clinical neurology with emphasis on areas of recent advances and progress in patient management. Both current concepts and new advances in neurologic disorders will be covered.

EDUCATIONAL OBJECTIVES Based on discussions with UCSF faculty and practicing physicians at other institutions, the topics were chosen based on physician-identified need for practice-based knowledge. The purpose of this program is to increase attendee competence and improve clinical practice in neurology, specifically to:

- Apply new concepts to epilepsy, multiple sclerosis, aging and movement disorders in practice.
- Recognize and select diagnosis and management of stroke, multiple sclerosis, headache, dementia, and apply best practices for their management.
- Improve the approach to common pediatric neurology conditions as well as recent advances in practice in pediatric neuroimmunology, stroke and neuromuscular conditions.

GREENER MEETING We're saving paper! The syllabus will be available electronically one week prior to the course. **Printed copies are available for in person registrants ONLY for an additional fee.**

JOINTLY ACCREDITED PROVIDER™ WITH COMMENDATION INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, the University of California, San Francisco is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

CME credit will be available – please check the course website for details.
